

SUMMARY

Product-minded design engineer seeking a senior role at the intersection of frontend and design. Former designer turned developer with a bias for action, strong inquiry skills, and deep involvement from conception to completion.

EXPERIENCE

Bright Funds

Frontend Software Engineer

Remote (PA, US)

March 2021 - April 2023

- Initiated and built a design system to allow for faster feature development and consistency across the platform.
- Part of a cross-functional team maintaining and improving a corporate social responsibility (CSR) enterprise product.
- Improved the user interface design and accessibility of the entire platform, resulting in higher user satisfaction and a more modern look and feel.
- Spearheaded the conversion of a legacy site from Ruby on Rails to VueJS, resulting in a significant improvement in code maintainability and scalability.

Reorg

Frontend Software Engineer

New York, NY

February 2017 - March 2021

- Worked closely with product and back-end to bring features to life from prototyping through development using component-based client architecture and VueJS.
- Led a platform-wide accessibility audit and implementation of changes to bring the product to AA WCAG standards.
- Designed and developed email alert templates that ensured user engagement across various Reorg products
- Improved the time to interactive (TTI) of a data-heavy table by over a minute, resulting in faster page load times and a better user experience.
- Co-created the Women in Tech at Reorg meetup hosting events for the tech community.

American Lawyer Media (ALM)

Graphic Designer

New York, NY

March 2012 - January 2017

- Part of the events marketing team designing various materials such as: email templates, web/print ads, logos and posters.
